## Geography - Continents and Seas

### Super South Africa

- Name and locate the world's seven continents and five oceans.
- Understand geographical similarities and differences through studying the human and physical geography of a small area of the United Kingdom, and of a small area in a contrasting non-European country.
- Location of hot and cold areas of the world in relation to the Equator and the North and South Poles.
- Use world maps, atlases and globes to identify the United Kingdom and its countries, as well as the countries, continents and oceans studied at this key stage.
- Use aerial photographs and plan perspectives to recognise landmarks and basic human and physical features.
